

airtouch⁵

Energy Savings Are Just the Beginning

Enhance your air conditioning with AirTouch, a smart controller to manage your climate control from a touch screen, smartphone or tablet.

Experience more comfort.
Enjoy more control.
Save energy running your air conditioning.

Home Comfort Looks Great

AirTouch knows how to keep everyone comfortable just the way they want.

Built in artificial intelligence helps manage temperatures and airflow for each room in your home, and can adjust your air conditioning with the weather. Live in comfort and save energy, without having to think about it.

Intelligent & Without Wastage

With Intelligent Temperature Sensor (ITS) technology, AirTouch tracks and manages temperatures throughout your home, instead of just 1 location.

Add more sensors, and enjoy

More Savings

AirTouch sends conditioned air only where it is needed.

More Comfort

AirTouch is able to identify unwanted hot or cold spots and respond.

More Control for Everyone

Now, everyone can set their favourite temperature for their space at home.

More Convenience

ITS adds an extra switch for the air conditioning in each room.

Save Energy Save Money

Built in smarts to help manage energy savings for you.

See when you used your air conditioning more than you needed to, or learn what rooms get used the most.

Weather Adaption

Reduce energy consumption with your air conditioning depending on the weather.

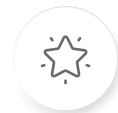

Make Home Comfort Simply Smart

Fast & Easy to Control

Our Sleep and Away functions let you save energy overnight or while you are away. Make sure you don't waste it while no one is home while still maintaining a comfortable house.

Use the Favourites function to save and recall your ideal climate control scenario.

Set a Quick Timer or setup your air conditioning for the season or each day of the week with our redesigned Programs tool.

Your Control From Anywhere

AirTouch 5 includes an all new advanced app to ensure you have access to your comfort, wherever you are.

Geofencing

Don't worry about forgetting to turn off the air conditioning and wasting energy when you leave home.

Temperature Alerts

You won't have to come home to an oven in summer or a freezer in winter again with home temperature alerts to your phone.

Add Zimi...

The Start of Your Smart Home

The epitome of comfort, energy savings, smart home integrations and style. AirTouch and Zimi working together as partners.

Control How You Want

Turn the lights on before you get home.

Zimi lets you control your lights, power and garage doors from anywhere.

Schedule

Heated towels at 6am. Schedule your switches with Zimi to turn on or off at any time of the day.

Auto Off

Add a touch of simplicity to your life and never forget to turn off a switch.

Outside Lights from Inside

Assign any switch to control other Zimi devices with Behaviour Link.

Favourites

You can assign multiple devices to one switch. Hallway, lounge and dining lights, on or off with just one press.

Behaviour Link Works for You

Zimi devices easily link together. With Behaviour Link any device can be controlled by any multi-purpose switch.

You can also assign multiple devices to one switch with Behaviour Link. No need to turn on multiple switches when you get home, just one press and you're done.

Your Home

Interact with your home in a way that suits you.

Smartphone app, wall console, switch or voice control. However you choose to control your smart home, AirTouch will respond.

Safety and Security

Certified by Google* on Android

Trust AirTouch to be the hub for your smart home and lifestyle devices to do everything you need from one place.

Setup a shared calendar, go shopping, manage your solar power, order food, update your music playlists, or check the security cameras with their apps via the Favourites list and Android Operating System.

Use with a video doorbell or video conference: Have 2 way video conversations with the built in camera that includes a privacy cover.
